BREED FOR THE FARM FLOCK

Farmer Must Suit Himself and Market Conditions in Selecting Variety—Discard the Scrub.

As with most of our domestic animals, there is absolutely no best breed of hens; if there was there would soon be only that one breed left, while now one hardly dares say how many good breeds there are without first consulting the very latest issue of the Standard of Perfection.

Then suit yourself and your market conditions in selecting your breed, but select some one breed and "stick to it" until you have the best flock of that breed in the county or state. The color of the shell of the egg has much to do with the market demand for it. San Francisco demands

Fine Type for Farm.

a clear white egg, while Boston wants a rich brown color; and the intermediate cities, all the way across, may, in a way, take almost any color; but most city retailers find it to their advantage to separate the colors to suit individual customers.

But never, no never, fool away very much time with "scrub" or mongrel stock on the farm, and don't try to keep too many breeds or you may soon have a lot of mongrels yourself. Even on the regular poultry ranch where many breeds are kept, strange "mixeries" sometimes happen in some most unexplainable way.

It is often claimed that mixed breeds are "scrubs" but better than purebreds, but a careful investigation will "nearly" prove that the feed, care, and perhaps the age of the birds, has more to do with the egg product than the simple fact that they are cross-bred.

But while different markets demand different colored eggs there is no market on this continent, at least, that demands a dirty or stained egg, or an egg that has been under a broody hen for a night or two, or one that has been out in the sun for several days. Gather daily at least and ship at least weekly.

DAIRYMEN VERSUS THE DAIRY

Man is Chief Factor in Production of Clean Milk, According to Medical Experimenters.

A number of American medical experts and experimenters in hygiene made a study to determine the most important factor in the production of clean milk—the dairy or the dairyman—and have come to the conclusion that the dairyman is the chief factor and the dairy of secondary importance.

The clean dairyman may be transported from dairy to dairy and can make clean milk wherever he goes.

It is said that if all the nonessentials or matters of secondary importance are eliminated, the factors which even alone are sufficient to produce under the conditions found in ordinary dairies a milk so clean that it will have with great regularity a bacterial count less than 10,000 bacteria per cubic centimeter are as follows:

Milking with dry hands into covered milking pails, the proper washing and sterilization of milking pails and milk cans, cooling the milk by placing the cans in tanks of cold water or ice water, regular laboratory testing of the milk for bacteria, and payments based on the laboratory tests.

ASHES GOOD AS FERTILIZER

They Not Only Contain Potash and Phosphoric Acid, but Also Magnesia and Lime.

The farmer who burns wood for heating and cooking should carefully store the ashes and not permit them to leach, as they have a peculiar fertilizing value. They not only contain potash and phosphoric acid in appreciable amounts, but also contain magnesia and lime, and when applied to the land they also act indirectly to increase the available nitrogen content of organic matter in the soil.

Ordinary house ashes contain on the average about eight or nine per cent of potash and two per cent of phosphoric acid. Investigators have considered that there is enough potash and phosphoric acid in a bushel of ashes to make it worth 20 or 25 cents. Besides that, some 10 or 15 cents additional might be allowed for the "alkali power" of the ashes. This power is that which enables ashes to rot weeds and to ferment peat. The potash content of ashes will be lost if they are permitted to leach, and care should be taken to store them in a dry place.

Dormant Spraying.

The "dormant spraying" which destroys the bark scale and the eggs of injurious insects, is the most important spraying of the year, in the judgment of some orchardists.

I OWE MY HEALTH

To Lydia E. Pinkham's Vegetable Compound.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."—Mrs. ROBT. STORRE, Moore Avenue, Washington Park, Illinois.

Wish every woman who suffers from female troubles, nervousness, backache or the blues could see the letters written by women made well by Lydia E. Pinkham's Vegetable Compound.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

Action is Natural.

P. R. Meehan, Hancock, Mich., writes: "I have given Foley Cathartic Tablets a thorough trial and can positively state they are the best laxative I ever used. Their action is natural, no pain or griping, and they clean the system in fine shape." Stout persons say the buoyant, free feeling they bring is a blessing. Dickson Drug Store—Adv.

After LaGrippe—What?

F. G. Prevost, Bedford, Ind., writes: "An attack of laGrippe left me with a severe cough. I tried everything. I got so thin it looked as if I never would get well. Finally, two bottles of Foley's Honey and Tar cured me. I am now well and back to my normal weight." A reliable remedy for coughs, colds, croup. Dickson Drug Store—Adv.

Coughs and Colds
Not to Be Neglected

Anyone will realize the seriousness of neglecting a cold if he observes the results of such neglect among his acquaintances. How often have you heard, "He caught cold, didn't do anything for it and it turned out—then some dreaded disease is named." Ordinary colds yield to prompt treatment at the beginning. That is why every family should be supplied with a reliable cough medicine—one that will heal raw and inflamed surfaces, loosen the phlegm and soothe the throat, ease the hoarseness and stop the tickling sensation in the throat that does not permit one to sleep. Foley's Honey and Tar Compound is invaluable for relief of coughs, colds, croup, whooping cough, tickling in throat, tightness or soreness, grippe or bronchial coughs. It contains no harmful ingredients. It is healing, soothing, efficient and pleasing.
